TEMPSTAR[®]
Heating and Cooling Products

- Nov. 1 Gas Heating: Service, Installation, Venting and Safety
- 5:00 pm—8:00 pm at 424 N. Vine Street
- \$30 per person. Each participant will receive a packet of printed information including a continuing education certificate.
- The heating season is here and your customers will be counting on you to solve their heating problems. This class on gas heating will help prepare you to be the problem solver. If you need more training on gas heat, or you are an experienced technician wanting a refresher, this class will have something to offer. (Covering natural and LP gas applications.)

- Nov. 15 Heat Pumps—What, How and Why?
- 5:00 pm—8:00 pm at 424 N. Vine Street
- \$30 per person. Each participant will receive a packet of printed information including a continuing education certificate.
- Heat Pumps have been around for many years, but even now they remain one of the most misunderstood types of heating and cooling equipment. With the increases in natural gas prices more customers are interested in heat pumps and dual fuel heat pumps. If you are interested in learning more about selling, installing and servicing heat pumps, you should attend this class.

This evenings class will be co-sponsored by CenterPoint Energy with an informative presentation on Arkansas's Heating System Rebates for high efficiency heating and cooling equipment.
